RIDE WITH CARE: BIKE PARK RULES

Mammoth is working hard to provide you with the safest experience possible. There are natural and man-made obstacles and hazards that require you to be alert and vigilant. Using common sense and following the tips and rules listed below will make your trip safer and more enjoyable.

- Stay in control and be able to avoid other trail users.
- Uphill traffic has the right-of-way on a two-way trail.
- On downhill trails, the slower rider in front has the right-of-way.
- Be courteous to other riders and move out of the way when it is safe for you.
- Obey all trail markings and signs to ensure your safety.
- Do not stop in the middle of a trail or where you cannot be seen from above.
- Do not shortcut trails; please tread lightly. Bike Park passes will be revoked for riding off the trail.
- Protect yourself against the elements by wearing gloves and protective clothing. Helmets are required at all times for mountain biking.
 - Temperatures can vary radically with altitude change.
 - Use sunscreen to protect from high-altitude sun.
- Start out easy. Bodies tire more quickly at Mammoth's high elevation.
- Staying hydrated is key to your comfort and safety: drink plenty of fluids.
- Watch out for hikers and motor vehicles.
- Pets are not allowed on bike trails (leashed pets allowed on gondola + hiking trails).
- Seek shelter during thunderstorms. Stay off ridgetops and away from the tallest trees, lift towers, power-line poles, signposts and large rock outcroppings.

- Do not ride alone. First aid, mechanical assistance and trail information is available at the Adventure Center or by dialing 3706 or 0 on any emergency/information phone (marked on the trail map) or by dialing 760.934.0706.
